

CORE NEEDS

24,280
CHILDREN
in Spokane County
are **Food Insecure.**
That's 1 in 4.

Children who experience
FOOD INSECURITY
are **300%**
more likely to become
OBESE
by age **5**

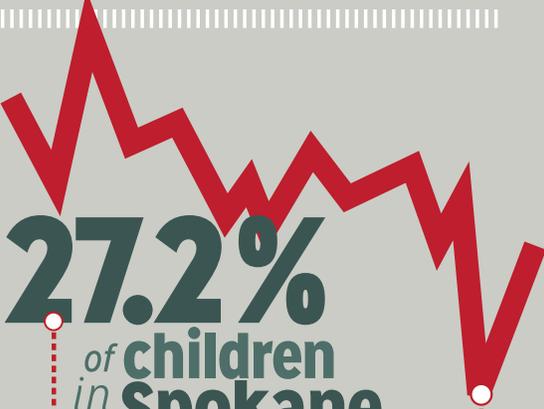

CHILDREN
suffering from
FOOD INSECURITY
are nearly
150%
more likely to be
AGGRESSIVE,
HYPERACTIVE,
and **NON-COMPLIANT**

Food insecure
CHILDREN
under **3**
AGE
were
2x as likely
to be
reported to be in
fair or poor
HEALTH.

27.2%
of children
in **Spokane**
live below the
Federal Poverty Line

The prevalence of childhood food insecurity in Spokane has far reaching negative implications covering every facet of life. Helping ensure a child eats well also helps to provide that child with better health, stronger relational attachments, healthier emotional well-being, and more positive social interactions.
